## ABOUT US

Infinity Lifts are all about offering our clients a lift for their home or office with infinite possibilities.

We are a small Sydney based company with a team of highly experienced, passionate and qualified people who specialise in supplying and installing the best product on the market.

With our Directors alone having close to 50 years combined experience in the lift industry you can trust that a lift supplied and installed by our team will be installed to precision and tuned to perfection which will mean your lift will run efficiently, smoothly, silently all day, every day.

At Infinity Lifts Customer Satisfaction is our number 1 priority so we go above and beyond to ensure that all your questions are answered and your lift design requirements are met.

Communication with our clients is key to a successful process, so we will keep you informed every step of the way from sales, manufacture and installation. With continual support from our team, you can be assured of a seamless experience from start to finish, ensuring that no detail is overlooked.

We pride ourselves on excellent service, communication, reliability and faultless workmanship. So we are committed to exceeding our client's expectations by providing the highest quality, European designed and manufactured product, complete with infinite options for customisation.

## OUR SUPPLIER – NOVA

Our supplier, Nova based in Italy was established in 1992. With over 20 years of design and manufacturing experience, our portfolio of home lifts are of the highest quality and are compliant to the Australian Lift Code AS 1735.

Infinity Home Lifts are produced using energy efficient machinery, which enables the entire production process to be completed by the power produced by a 100kw solar power system at the Nova factory.

So not only are Nova committed to producing a high quality, innovative and stylish lift, they are also committed to reducing their carbon foot print and providing an Energy Efficient product.

The Infinity Portfolio of products are qualified Class A in accordance to the German norm VDI4704.

## TECHNICAL DATA

	INFINITY HOME - TRACTION	INFINITY HOME - HYDRAULIC
<b>CAPACITY</b>	300 - 400kg	300 - 400 - 500kg
<b>NUMBER OF STOPS</b>	5 Max	5 Max
<b>SPEED</b>	0.3m/s	0.3m/s
<b>PIT</b>	250mm	200mm
<b>MINIMUM HEADROOM</b>	2700mm	2400mm
<b>POWER</b>	<b>1.1KW 240V/415V</b>	1.1KW 240V/415V
<b>DOOR</b>	500-1000mm	500-1000mm

We can also provide a weather resistant double glazed glass doors which provides 4 times better insulation properties than a standard glass door which will keep your home cooler in summer and warmer in winter, therefore

reducing your power consumption and minimizing your carbon footprint.

The Infinity Home Lift complies with the principles provided by the EU and is based on the provisions of the Kyoto Protocol for the reduction of CO2 emissions.

Up to 70% less power consumption than a hydraulic lift and consequently up to 70% less CO2 emissions (Average yearly emissions is 42kgs of CO2). Expected power consumption on average for our Infinity Home Lift is 100kWh annually.

This along with our insulated products gives you the most environmentally friendly lift available to you today.

**12 MONTHS WARRANTY**  
WITH EVERY LIFT

**EUROPEAN QUALITY  
THAT WILL LAST THE  
TEST OF TIME.**

We pride ourselves on our integrity and will never over promise and under deliver.

A lift in your home, will enhance your life, increase the value of your property, and ensure your beloved home will remain liveable well into your later years in life.

In most cases the cost of buying, selling and moving house can far outweigh the cost of adding a lift to your home.
